WHY XSOLUTIONS?

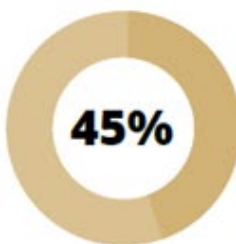

The experts at XSolutions demonstrate a relentless passion for supporting businesses with world-class Business Continuity Disaster Recovery and IT Managed Services. With typical data backup systems, recovery is measured in days to weeks; but with a Business Continuity solution like ours, recovery is measured in minutes to hours.

Studies show 20% of Small to Medium Businesses report that they have fallen victim to a ransomware attack.

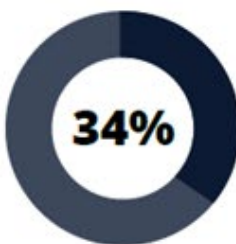

Of those who are affected:

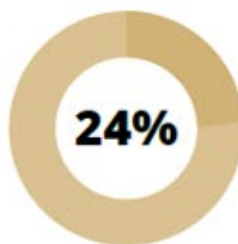

report loss of
business
productivity

experienced
business-
threatening
downtime

lost data
and/or
devices

were able to
pay the
ransom and
recover data

With Business Continuity Disaster Recovery,
4 in 5 clients are fully recovered in 24 hours or less.

Without Business Continuity Disaster Recovery,
less than 1 in 5 were able to do the same.
